There are Positive Clip and Negative Clip in the battery compartment.
Let the Positive Clip contact with battery "+", and Negative Clip contact with battery "-".
Do not place both of the Positive Clip and Negative Clip under the battery to touch "-".

Temperature & Humidity Recorder

Measure and record temperature and humidity. Be suitable for transportation, medicine & food production and storage. Such as, wine cooler, cigar humidor, moisture-proof boxes and other equipments which need monitor and record the temperature and humidity data.

Feature and specification

- ※ Min & Max memory check
- ※ Blue backlight
- ※ Memory clean and °C/°F display conversion
- ※ Check the hourly average temperature for last 48 hours
- ※ Temperature measuring range: 32°F~140°F (0°C-60°C)
- ※ Humidity measuring range: 10%~95%RH

- ※ Accuracy : ±2°F (±1°C); ±3%RH (30%~80%RH), ±5%RH for beyond 30%~80%RH
- ※ Powered by one CR2032
- ※ Panel Mount and Magneticsm Attraction are compatible
- ※ Product Size : D2.36*H0.63 inches (D60*H16 mm)
- ※ Product Tail Diameter: 2.27 inches (57.7 mm)
- ※ Mount Hole Diameter: 2.27 inches ~ 2.36 inches (57.70 mm ~ 60.00 mm)
