

Animal Rectal Thermometer

- Smart • Precise • Wireless

Advantages

- Waterproof sealed structure with 4mm diameter stainless steel tube
- Durable, shockproof, drop-resistant, and easy to clean and disinfect
- Wirelessly monitoring animal body temperature data on smartphone

Futures

- Measuring range: 25.0°C to 45.0°C
- Measurement accuracy: $\pm 0.1^{\circ}\text{C}$
- Measuring and transmitting : 10 seconds
- Wireless transmission distance: 30 meters
- Charging for 5 minutes and using for 12 hours

Applications

- Measure the body temperature of pigs, cows, sheep, and other livestock
- Measure the body temperature of household pets or other animals
